

WEBSITE DESIGN TASK: CORE SKILLS WEEK 1

1. Choose a topic which you think you are going to produce a website on, and write it in the space below:
2. Do some research, and discover 10 sites on the Internet which already exist which are related to your chosen TOPIC. Copy the URL (address) from the address bar into the space below:
a)
b)
c)
d)
e)
f)
g)
h)
i)
j)
3. Look back at these sites and pick out several features of these sites which you would like to have on your own website.
a)
b)
c)
d)
e)
f)
4. Look at the BLANK FRONT PAGE sheet. Sketch out a possible design for your HOME PAGE. The HOME PAGE is the first page that the WEB BROWSER will open when someone types in the address of a site. Try to decide on the layout. Choose a COLOUR, FONT and how you are going to NAVIGATE, or get from one page to another. Are you going to have BUTTONS to press ? This page will have to be called INDEX.HTML eventually...
5. Think of a possible address for your website. We'll see if it's available next time. http://www.
